Personnel and supplies entered the module via four enormous tubular extensions, known as feeder ramps, that telescoped from the main body of the ship to terminate in cupolas mating with external ports in the Battle Module, two forward and two aft its midships section. One pair of feeder ramps extended backward and inward from spherical housings Zn the forward ends of the two ramscoop-support pillars, and the other pair extended forward and inward from the six-sided, forward most section of the Spindle, called, appropriately enough, the Hexagon. As if having to get through the feeder ramps wasn't problem enough, the transit tubes, freight handling conveyors, ammunition rails, and other lines running through to them from the Spindle all came together at a single, heavily protected lock to pass through an armored bulkhead inside the Hexagon. Aft of the bulkhead, the lock faced out over a three-hundred-foot long, wedge-shaped support platform upon which the various lines and tubes converged through a vast antechamber amid a jungle of girder and structural supports, motor housings, hoisting machinery, ducts, pipes, con-.He's rapidly losing confidence. Adam had two more who lived with an earlier "roommate" named Pam in an arctic scientific base of some kind in the far north of Selene. Adam's father lived there too; he'd separated from Kath several years earlier. Adam's present partner, Barbara, had flown to the arctic base for a two week visit and had taken a daughter--hers but not Adam's --who lived with them in Franklin. Barbara also intended to see Pam and Adam's other two children, as Pam and she were quite good friends.
