Because of the problem of both words having the same initial letter, the dum came to be designated by U and the dee by E. The dum carried a one-third charge, and the dee carried none. Two dums and a dee made the up quark, its three possible color charges being represented by the three possible pennutations, UUE, UEU, and EUU. Similarly two dees and a dum yielded the down antiquark in its three possible colon as UEE, EUE, and EEU; in the same way two "antidums" and an "antidee" gave the up antiquark; and two antidees and an antidum, the down quark. Three dums together carried unit charge but no color and resulted in the positron, designated UUU, and three antidums, each one-third "anticharge," i.e., negative, made up the normal electron, UUU. Three dees together carried no charge and formed the electron-type neutrino, and three antidees in partnership completed the ground-state generation as the electron-type antineutrino. It followed that "antitweedles" didn't necessarily give an antiparticle, and tweedles didn't always make a particle. Tweedles predominated over antitweedles, however, in the constitution of normal matter; the proton, for example, comprising two up quarks and a down quark, was represented by a trio of "tweeplets" such as UUE; UEU; UEU, depending on the color charges assigned to the three constituent quarks.. When Swley agreed with something, he said he didn't agree. When he really didn't agree, he said nothing. He never said he agreed with anything. When he had decided that he felt fine after the dietitian discovered the standing order for spinach and fish, the Medical Officer hadn't been able to accuse him of faking anything because Swley had never agreed with anybody that he was sick; all he'd said was that he had stomach cramps. The M.O. had diagnosed that anybody with stomach cramps on his own time had to be sick. Swley hadn't. Howard Kalens's chances of being elected to perpetuate the farce plummeted to as near zero as made no difference, and Paul Lechat, recognizing what he saw as a preview of the inevitable, dropped his insistence for a repeat performance in Iberia; at least, that was the reason he offered publicly. Ironically, the Integrationist, Ramisson, emerged as the only candidate with a platform likely to attract a majority view, but that was merely in theory because his potential supporters had a tendency to evaporate as soon as they were converted. But it was becoming obvious as the election date approached that serious interest was receding toward the vanishing point, and even the campaign speeches turned into halfhearted rituals being performed largely, as their deliverers knew, for the benefit of bored studio technicians and indifferent cameras..
