The sheep, who had been grouped near the stile, were scurrying off, and defeated Erreth-Akbe, who "lost his staff and amulet and power" and crept back to Havnor a broken, playing and delaying. But now that I've come, you serve me, and have nothing to be afraid of. "I cannot read them." Otter's voice was toneless. "I cannot go there. No one can enter there in the body but only the King. Only he can read what is written."..after the men were gone did some neighbors creep out to comfort Otter's people as best they could.. "What's Alder paying you for all this?" she demanded while the water was heating. She was still..He could eat only in the cell, where they took his gag off. Bread and onions were what they gave him, with a slop of rancid oil on the bread. Hungry as he was every night, when he sat in that room with the spellbonds upon him he could hardly swallow the food. It tasted of metal, of ash. The nights were long and terrible, for the spells pressed on him, weighed on him, waked him over and over terrified, gasping for breath, and never able to think coherently. It was utterly dark, for he could not make the werelight shine in that room. The day came unspeakably welcome, even though it meant he would have his hands tied behind him and his mouth gagged and a leash buckled round his neck..The slave stood by, motionless. All the people who worked in the heat and fumes of the roaster tower were naked or wore only breechclout and moccasins. Otter glanced again at the slave, thinking by his height he was a child, and then saw the small breasts. It was a woman. She was bald. Her joints were swollen knobs in her bone-thin limbs. She looked up once at Otter, moving her eyes only. She spat into the fire, wiped her sore mouth with her hand, and stood motionless again..She had never seen where he lived. He slept wherever he chose to, she imagined, in these warm summer nights, She asked him where the food they ate came from; what the School did not supply for itself, he said, the farmers round about provided, considering themselves well recompensed by the protections the Masters set on their flocks and fields and orchards. That made sense to her. On Way, "a wizard without his porridge" meant something unprecedented, unheard-of. But she was no wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, borrowing tools from a farmer and buying nails and plaster in Thwil Town, for she still had half the cheese money.. "To the root," he said impatiently, in the language of the Making. "To the root!" "That's right, little servant, well done," Gelluk said to her in his tender voice. "Give your dross to the fire and it will be transformed into the living silver, the light of the moon. Is it not a wonderful thing," he went on, drawing Otter away and back down the spiral stair, "how from what is most base comes what is most noble? That is a great principle of the art! From the vile Red Mother is born the Alking. From the spittle of a dying slave is made the silver Seed of Power."..and would protect her. Then he followed another woman meekly enough. "The first Archmage came centuries after the last..mental transformation. Archetypes turn into millstones, large simplicities get complicated, chaos." "There was no place for him among the Masters, since a new Master Summoner had been chosen, a strong man in his prime, not likely to retire or die. Among the scholars and other teachers he had a place of honor, but he wasn't one of the Nine. He'd been passed over. Maybe it wasn't a good thing for him to stay there, always among wizards and mages, among boys learning wizardry, all of them craving power and more power, striving to be strongest. At any rate, as the years went on he became more and more aloof, pursuing his studies in his tower cell apart from others, teaching few students, speaking little. The Summoner would send gifted students to him, but many of the boys there scarcely knew of him. In this isolation he began to practice certain arts that are not well to practice and lead to no good thing.." "Master Hand," said the Doorkeeper, "she asked to enter as a student, and I saw no reason to deny..So they sailed south in Hopeful, landing first at malodorous Geath, and then in the guise of..The Years of the Kings of Havnor were a period of prosperity, discovery, and strength, but in the last century of the period, assaults from the Kargs in the east and the dragons in the west became frequent and fierce.." "You can tell 'em you're the band that's getting paid." "I guess he did. Another curer came up this way, a fellow that's been by here before. Doesn't amount to much that I can see. He did no good to my cow with the caked bag, two years ago. And his balm's just pig fat, I'd swear. Well, so, he says to Otak, you're taking my business. And maybe Otak says the same back. And they lose their tempers, and they did some black spells, maybe. I guess Otak did. But he did no harm to the man at all, but fell down in a swoon himself. And now he doesn't remember any more about it, while the other man walked away unhurt. And they say every beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain, touching the beasts and healing them. And you know what the cattleman gave him? Six pennies! Can you wonder he was a little rageous? But I don't say..." She checked herself and then went on, "I don't say he's not a bit strange, sometimes. The way witches and sorcerers are, I guess. Maybe they have to be, dealing with such powers and evils as they do. But he is a true man, and kind." "Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order, and for the sake of the balance of all things, I bid you now leave this island. We cannot give you what you ask, and for that we ask your forgiveness. But if you seek to stay here you forfeit forgiveness, and must learn what follows on transgression."..courtesy, and because neither Gully or Otak seemed names well suited to him. An otak, she had.. "So it was ordained by the first Archmage, centuries ago," said Ivory. "But ... I too have." "No need," he said in that distant way, as if he hardly knew what she was talking about; but then.. In the cold darkness under a few stars and the black curve of the hill, they stripped and waded into the shallow water, their feet sinking deep in velvet mud.
