Guilt and her pain tore at me. I chased through my head for something to comfort her. "Mandy, I?" She went on like that, whispering about creatures half-serpent and half-human, with bodies cold to the touch, limbs that could writhe in boneless contortion to squeeze the breath from a man and crush him like the coils of a giant constrictor. She spoke of forked tongues, of voices hissing forth from mouths yawning incredibly wide on movable jawbones. And she might have gone on, but Nolan stopped her now; his head was throbbing with weariness. By the end of July he had refined and miniaturized the device and had extended its sensitivity range into the infrared. He spent most of August, when he should have been on vacation, trying various methods of detecting sound through the device. By focusing on the interior of a speaker's larynx and using infrared, he was able to convert the visible vibrations of the vocal cords into sound of fair quality, but that did not satisfy him. He worked for a while on vibrations picked up from panes of glass in windows and on framed pictures, and he experimented briefly with the diaphragms in speaker systems, intercoms and telephones. He kept on into October without stopping and finally achieved a system that would give tinny but recognizable sound from any vibrating surface? a wall, a floor, even the speaker's own cheek or forehead. significant fact; this place started out with whirligigs, but later modified itself to use human heart pumps. license yesterday. elongated, the wide mouth accentuating the ugliness of her face.
